

Dear Troop 4,

I would like to thank Brett and Kirk Chatoney and Andrew Barker for helping me with my Eagle project which was to renovate the SOAR classroom at Faith Christian School. The school really appreciated all the work that was done to the classroom and could not believe the difference that it made. Now the students have a freshly painted classroom with a newly constructed study center that has greatly improved their learning environment.

Thank you also to the leadership of Troop 4. You have helped me through the years and encouraged me to continue in scouting so that I could one day reach my goal of becoming an Eagle Scout. I will always be grateful for the time that you spent investing in my life. It definitely has helped me become the person that I am today.

Sincerely,

Ben Stricklin
